Completed 01/08/2018.. Suicide Adventures is, wellu2026 exactly that. Honestly, this is the first time in my life I played the game in which you need to die in order to advance to the next level. First time for everything, right? Even though it isnu2019t shown in store, game has 5000 achievements. If you thought you earn those just by starting the game and let it idle for few hours, just like other spam games, you will be wrong. To unlock achievements you are required to actually play. Luckily for all of us, who bought this, it takes only few minutes if you follow available guide. Like I already said, you advance into next level by killing yourself in particular way. Usually figuring some sort of u201cpuzzleu201d. Whenever you die and get send to next level of the game, part of achievements start to unlock and considering amount of achievements you are forced to wait and hope steam doesnu2019t crash. Gameplay combined with most basic controls is terrible. Sometimes you jump over obstacle with no issue, and sometimes you keep trying and keep trying until game finally show some mercy and let you. I wonu2019t even waste time talking about graphics. Funny thing is, this is not even close to the worst game I ever played. Anyway, I can only recommend this game to achievement hunters. For the rest, I can only say to stay away as far as possible. Itu2019s not worth it. Not even on sale.. FeistFight: :FeistFight: :FeistFight:. easy hundo, but spamdo.. Bad game. Just for achievements. You can get it easily and fastly.. Suicide Adventures is, wellu2026 exactly that. Honestly, this is the first time in my life I played the game in
